**FISE stands in Solidarity With PAME**  
**and the working class of Greece against the New Memorandum**

against the new measures that are being prepared. To send a message of militant resistance to the demands of the multinationals.

PAME has called for massive demonstrations all over Greece, on June 11. Already more than 600 trade union and people's organisations have called for participation. At the same time the class trade union movement of Greece prepares for General Strike, response to the New Memorandum.

In this critical point for the workers and the people of Greece, international solidarity can be a powerful weapon. Solidarity can become a weapon against the propaganda of the imperialist centers, against the blackmails of the Greek Government, which demands the Greek people to submit to the new measures.

**FISE stands in Solidarity With PAME and the working class of Greece against the New Memorandum. We call the teachers' trade unions of the world to condemn the hypocrisy and the blackmails of the Greek Government and the lenders. We call all our members and friends to express their solidarity to the demonstrations of PAME on June 11 and the General Strike-Response to the New Measures.**
